

DENVER CBD

DENVER CBD DOSAGE GUIDE

CBD does not have an official serving size recommended by the FDA. There will be some trial and error to gauge the proper dose. Depending on the severity of the condition being treated and the individual's body chemistry, an effective dosage can range from a few milligrams or more. Begin with a few small doses over the course of a day. Use the same dose for several days and increase if necessary until desired results are reached.

How To Use:

- ◆ Shake bottle well
- ◆ Fill the dropper to desired amount
- ◆ Administer oil by dropping under the tongue for at least 30 seconds
- ◆ Use twice a day
